1. Introduction

1.1. Definitions and Abbreviations

Term/Abbreviation	Definition
EHI	**E**TAS **H**elp Desk **I**nternational
HW	Hardware
KIR	**K**nown **I**ssue **R**eport – For severe Problem Reports which occur after a release, ETAS has introduced the Known Issue Report to inform affected customer immediately. The current Known Issues of former versions can be found on the ETAS website: www.etas.com/kir
PR	Problem Report
SW	**S**oft**W**are
ASW	AUTOSAR **A**pplication **S**oft**W**are
BSW	AUTOSAR **B**asic **S**oft**W**are
NA	**N**ot **A**pplicable
BSWMD	**B**asic **S**oftw**W**are **M**odule **D**escription
SWCD	**S**oft**W**are **C**omponent **D**escription

1.2. References

MemMapGen Getting Started Guide is available in the Documentation folder of installation directory.

1.3. User Documentation

The MemMapGen Reference Manual and MemMapGen Help Error Description document can be found in the Documentation folder of the installation directory in PDF format.

2. Product Definition

2.1. Functions at a glance

MemMapGen generates memory mapping header files compliant to AUTOSAR memory mapping concept.

1. Reads memory sections configured in BSWMD/SWCD files.
2. Reads pragma configurations from Cucel.MemMap component.
3. Generates memory mapping header files.

2.2. General Description

2.2.1. System Prerequisites

Please refer to the latest RTA-CAR Release Notes for more details

2.2.2. Software Prerequisites

MemMapGen should be used as part of ETAS RTA-CAR Classic AUTOSAR solution.

RTA-CAR installation includes a compatible version of MemMapGen.

Versions tested and released for compatibility:

MemMapGen	RTA-CAR
V12.7.0	V12.7.0

2.2.3. Release Test Configuration

The following configuration has been used for release test:

- 2.5 GHz PC, 32 GB RAM, Windows® 10 & Windows® 11 64-bit
- 2.5GHz PC, 8GB RAM, Debian 11 and Ubuntu 20.04

2.2.4. Restrictions

Use of MemMapGen through remote desktop is not supported.

MemMap generation is supported for up to below AUTOSAR schema versions.

- AUTOSAR_00052 (AUTOSAR 23-11 version)

2.2.5. Miscellaneous

NIL.

2.3. Delivery

The software is delivered with an installation routine on a DVD including MemMapGen V12.7.0 software, documentation, tools, utilities, and further information. All software documentation is available in the Portable Document Format (PDF), which requires Adobe® Reader®.
The DVD contains the following items:

Directory	Meaning / Explanation
\3rdPartyLicenseInformation	License information of 3rd-party software (ASLR, EPL-v1.0)
\Documentation	Release Notes (this document) and other documentations
\MemMapGen_V12.7.0.zip	Contains the standalone RCP software of MemMapGen

ReadMe.txt	Any last-minute information (if available)

2.3.1. Used 3rd Party Software

MemMapGen does not use any third-party software.

2.4. Installation

Installation steps and hints are in getting started guide of MemMapGen.

2.4.1. Installation Hints

Installation steps and hints are in getting started guide of MemMapGen.

2.5. Licensing

This section describes about MemMapGen licensing.

Licensing in MemMapGen

No license check performed in MemMapGen.

2.6. EULA for Installable Features Shipping with this Product

EULA stands for **E**nd-**U**ser **L**icense **A**greement. This section provides the EULA for features that ship with this product.

2.6.1. Delivery

The (DVD) installation medium of this product may ship additionally installable features of ETAS GmbH. Such features are not part of, and are not installed together with, this product.

2.6.2. Licensing

NA

2.6.3. EULA for Such Features that can be used “Free Of Charge”

a) Licensing
ETAS grants to you a non-exclusive, perpetual license to use a feature for evaluation and testing purposes. Any other use of the feature, in particular any use in series development or any other production or commercial environment shall be prohibited.
You are NOT entitled to modify, translate or fragment parts of the feature or to remove any alphanumerical or other identification from the data media (and/or the feature).

b) Disclaimer of Warranty
Due to the gratuitous character of the license grant and unless required by applicable law or agreed to in writing, this feature is provided on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using this feature and assume any risks associated with your use of the feature.
c) Limitation of Liability
Unless required by applicable law or agreed to in writing, in no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall ETAS be liable to you for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this agreement or out of the use or inability to use the feature (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if ETAS has been advised of the possibility of such damages.

2.7. Data protection

If the product contains functions that process personal data, legal requirements of data protection and data privacy laws shall be complied with by the customer. As the data controller, the customer usually designs subsequent processing. Therefore, he must check if the protective measures are sufficient.

2.8. Data and information security

To securely handle data in the context of this product, see the next sections about data and storage locations as well as technical and organizational measures.

2.8.1. Data and storage locations

The following sections give information about data and their respective storage locations for various use cases.

2.8.1.1. License management

No license check performed in MemMapGen.

2.8.2. Technical and organizational measures

We recommend that your IT department takes appropriate technical and organizational measures, such as classic theft protection and access protection to hardware and software

3. Changes

This chapter describes changes with respect to the previous version of MemMapGen V12.7.0.

3.1. What's New

Product Improvements

3.1.1 What's in MemMapGen

MemMapGen generates memory mapping header files compliant to AUTOSAR memory mapping concept.

1. Reads memory sections configured in BSWMD/SWCD files.
2. Reads pragma configurations from Cucel.MemMap component for the compiler configured.
3. Generates memory mapping header files.

MemMapGen generates header files containing pragma sections for the memory sections present in the BSWMD/SWCD files and RTE generated BSW arxml file. Pragma sections are generated based on the configurations available in Cucel.MemMap.

3.2. Compatibility to Earlier Releases

NIL

3.3. Fixed Problems

This section describes the set of fixed problems of the released version of MemMapGen V12.7.0.

Problem Number	Title
NIL	

3.4. Known Issue Reports

If a product issue develops, ETAS will prepare a Known Issue Report (KIR) and post it on the internet. The report includes information regarding the technical impact and status of the solution. Therefore, you must check the KIR applicable to this ETAS product version and follow the relevant instructions prior to operation of the product.

The Known Issue Report (KIR) can be found here: www.etas.com/kir

3.5. Known Issues

This section describes the set of known problems of the released version of MemMapGen V12.7.0.

3.5.1. Software related Items

Problem Number	Title
NIL	

3.5.2. Hardware related Items

Problem Number	Title
NIL	

4. Hints

NIL

5. Hotfix Information

Currently no Hotfixes are available.

6. Contact Information

6.1. Technical Support

For details of your local sales office as well as your local technical support team and product hotlines, take a look at the website: www.etas.com/hotlines
